GOVERNOR MCKINLEY'S campaign in Ohio is a triumphant tour.

No matter how they are "built" election day, every wage-earner is in favor of McKinley wages.

It must be a very solemn season for Mayor Sullivan now that he has been deprived of his "business-administration" attachment.

Who will write the muster roll of the inspectors of sprinkling, of weeds, of clouds, etc., for the information of the people of Indianapolis?

THE silver Senators are heading a rebellion against public opinion and the public interest. They are making a national nuisance of themselves.

WHEN a negro-hating mob cannot lay its hands upon a colored murderer in Louisiana it lynches his three innocent brothers and calls the act revenge.

FROM Sept. 1, 1892, to date, the city has paid in interest on its debt \$24,640 more than it would have had to pay but for the trickery of the Sullivan clique.

SIXTY-FOUR dollars a day is \$2,66 an hour. This represents the excess of interest which the taxpayers of Indianapolis are paying as the result of this "business administration."

In his last speech the President did not refer to the "solemnity" of the occasion, but he had "sober reflections," possibly because Senator Voorhees is not the man he took him for.

Nor a man who has an active interest in American industries, either as employer or employe, has appeared before the ways and means committee to advocate a strictly revenue tariff.

Can anybody tell way the expenses of the city government should have increased from \$793,872.84 in 1889, the last year of Mayor Denny's rule, to \$1,024,-621.23 in 1893, the last year of Sullivan's

It is not possible that Chairman Taggart had a hand in the ridiculous performance of the gamblers, for it is not possible that he wishes to see the Mayor in the light in which the Tron fraternity has placed him.

OFFICIAL reports show an increase in the cost of the city government of \$230,748.39 during the four years that Mayor Sullivan has been in office, and this does not include street improvements, which are borne by the property

HERETOFORE Senator Voorhees has been regarded as a resolute man, but unless he takes positive steps to bring the Senate to a vote he will be rated either an irresolute man or as lukewarm in the service for which the President has so abundantly rewarded him.

It is very probable that the shocking massacre of an entire family in Daviess county was the deed of fiends living in the immediate vicinity, and who cannot get a great way from their crime. It is probable that the Governor has no fund for that purpose, as have Governors of other States, but would he not be warranted in offering a liberal reward for the detection of the murderers? Can anybody tell where this thing going to stop if the Sullivan ring of tax-eaters is continued in power?

THE GAMBLERS' FARCE.

Messrs. Dickson and Talbott, with all their enterprise and tact, will not be able to set so many people alaughing the coming season as has the performance of the gamblers in oluntarily closing their places to prevent the defeat of the Sullivan-Buskirk-Coy ring. The Mayor has declared that he knew of no gambling houses, the Sentinel has declared that the gaming house and crap dive are necessary evils which cannot be suppressed and which are no more an evil now than ever before, and the Board of Safety could not see that it was necessary for it to interfere so long as the gamblers were keeping proper places. Thus the Mayor, his organ and his alleged Board of Safety were carrying out their part of the bargain when the gamblers themselves, with a flourish of trumpets, declared that they had resolved to stop, without so much as notifying the Mayor! No wonder people on the streets, Democrats as well as Republicans, were laughing vesterday over what has been styled the "Gamblers' Farce." In declaring a purpose to close they not only proclaimed their existence, but the ignorance or duplicity of the Mayor in asserting that he knew nothing about they also admitted that gambling is an evil not recognized by law, which is a cruel sacrifice of their champions, the Sentinel and the Board of Safety. They have, moreover, convinced the people dare not interfere with them.

The laugh is not confined to the position in which the performance has put the Mayor and his friends. Much of the fun is over the gamblers themselves. who seem to have come to the conclusion that the people would accept their closing of their dens and dives as evidence of Saul of Tarsus conversion as extensive as the gambling fraternity. People will not be cheated again as they were in 1891. They know that the gamblers have closed in the expectation that the indignation against them will blow over by the second Tuesday of October, and that hundreds of men who are now hostile to the Sullivan ring because of its wide-open policy will forget all about the connivance of the Mayor and his bosses with the gambling infamy in a week and vote for their friend. The gamblers are congratulating themselves that the people, whom they have aroused, will conclude that they have stopped for good. Perhaps they imagine that the enemies of gambling will hold a public meeting for the purpose of extending them their thanks for doing what the Mayor would not attempt

do-close the gambling dens. The gamblers will not be able to deceive the dullest voter in the city. There is not a voter who does not know that the gamblers closed because they hoped to save the Mayor in the election, and thus secure immunity for two years of uninterrupted robbery of hundreds who can be enticed into their places.

the Mayor, they have placed the dunce's cap upon him and exposed him to universal ridicule. The average person is simply amazed at the hopeless stupidity of the gamblers. And yet all laugh at their farce.

TO MAYOR SULLIVAN.

Sir-You are reported as expressing approval of the resolution passed by the Council a few nights ago, declaring it it to be "the sense of this Council that Mayor Sullivan instruct the Board of Public Safety to notify the gambling year and be estimated at \$113,096 next | houses in this city that they must not allow minors to play in their rooms." The Sentinel says that on your attention being called to this resolution you said:

The resolution was all right. I am opposed to gambling, but in a city the size of Indianapolis there always will be gambling and other violations of law, and the best that can be done in any city is to control and reduce to a minimum such violations.

How can a man of your intelligence expect the people to regard such trifling as this with any degree of patience? You have been Mayor of this city four years, and, during three years of the time, you have had unlimited authority over the Board of Public Safety, and, through them, of the police. The city charter makes it your duty to see that the laws of the State and the city ordinances are enforced. During all the time that you have been Mayor the laws against gambling, against keeping a gambling house and against allowing minors to gamble have been, practically, a dead letter. Your Board of Public Safety has tolerated gambling and, thereby, connived at the violation of law. Your superintendent of police has shut his eyes to the practice. The members of the force have passed gambling houses day and night, knowing them to be such, and have made no effort to enforce the law against them. During the time that you have been Mayor hundreds of youths and mere boys have been enticed into these places and started on the road to ruin. Yet you dare to stand up before this community and say that gambling has been reduced to a minimum! You dare to say this in spite of the fact that you have never issued an order to your Board of Public Safety nor to the police on the subject, nor made an honest attempt to enforce the law. Gambiers call people who are easily deceived "suckers." Do you think the people of Indianapolis are mainly of that class?

ONLY a few years since it was given out that there was no profit in sugar refining because the refineries were so numerous as to cause so sharp a competition that prices contained no margin for the refiner. Since that time the Sugar Trust was formed, and it controls l now about every refinery in the East. To do this, the trust was compelled to buy out the immense reflueries of Spreckels, which were built only a few Can anybody tell why the receipts | years ago. Within a month the trust shut down all its refineries with a view to forcing the dealers in raw sugars to reduce the price. After a closing of two weeks, the trust started its refineries, but the stock was so nearly exhausted that refined sugar became very scarce, and now that the trust's refineries are running full force, it is only able to furnish its customers a quarter or half the amount ordered. It is due the trust to say that it has not put up prices during this period, a thing it might do until the half cent of tariff should make the limit which would open our markets to the refined sugars of Germany and France. Nevertheless, a combination which grasps the refined sugar market of the United States is not a pleasant thing to contemplate. This statement must be taken with due allowance, as, coming by the way of London, it is ant to be colored in the interest of the monarchists. There has been some monarchist feeling in Brazil ever since the overthrow of the monarchy in 1889, but it is not strong nor aggressive. If it should become so it is probable that Dom Pedro's daughter Isabella, who married the Count D'Eu, would try to take advantage of it. The old Emperor and Empress are both dead, but Isabella is ambitious and capable, and it would be gambling houses in this city. would be as bad as a monarchy. Now and then a cross-roads Democratic organ asks what became of the surplus of \$100,000,000 in the treasury when General Harrison became President, but it belonged to the Democratic convention of Pennsylvania to display its stupidity by asking such a question when every intelligent man in the country knows that that \$100,000,000 and \$160,000,000 more were used in the redemption of interest-bearing bonds of the government. Even if it is necessary for a Democratic convention to say something it need not proclaim its stupidity by asking such a question.

SENATOR IRBY, the Populist successor to Wade Hampton in the United States Senate, made his appearance in Columbia, S. Irby, carrying concealed weapons, count No. 2." He will probably plead the courtesy of the Senate against further proceedings.

CHICAGO, Sept. 20. - A combination of in teresting events attracted large crowds to the exposition to-day. First in importance in the day's programme, perhaps, was the Iowa celebration. Governor Boies arrived in Chicago this morning, accompanied by his military staff and other prominent people of the Hawkeye State. The lows State Band gave a concert, and the Governor was tendered a reception. The Governor and staff reviewed the State parade and troops from the balcony. The Patriotic Sons of America marched into the grounds to-day strong in numbers. The procession, entering the Midway with bands playing and flags tig-

elaborate celebration was held. The mem-

headed by P. F. Pettibone, came to the fair

by steamboat to-day, and, after a short

session, took in the Midway. Rain marred the festivities somewhat but, despite the fact that a continual drizzle fell, a large number attended. The total admissions to-day were 210,280, of which 177,428 were paid.

First Day at DePauw University-Union City Health Board Objects to Homeopathic Vaccination.

Special to the Indianapolis Journal.

WASHINGTON, Ind., Sept. 20.-The murderer or murderers of the Wratten family are still at large. More than a thousand persons from this city and lower parts of the country were at the scene of the tragedy yesterday afternoon. The bloodhounds were taken out and put in the room where Mrs. Elizabeth Wratten was murdered. They jumped from the window and circled back to the house when they were started again and went towards the river. At Flat Creek crossing they stopped. Here they were transported across the stream soon resumed the trail. They following the scent they reached Birch Bridge Dubois county, about ten miles from the scene of the slanghter. Here they stopped again and refused to go any further. The men with the dogs then placed them in a wagon and started towards Jasper, and on the way met a farmer, and by inquiring of him found that two men had ridden about two miles with him. He showed them where the strangers got in the wagon, and it proved to be the place where the dogs had lost the trail. Calling the roll revealed that Revs. John A. Brouse, George W. Winchester and C. E. Lewis have passed over the river. The conference re-D. Moore M. Westhafer elected Rev. with Murphy assistants. George Rev. C. W. linsley was elected statistical secretary, with Rev. F. S. Tincher assistant. William Newkirk, of this city, was elected conference treasurer. Rev. E. L. Dolph, presiding elder of Moore's Hill district, made his report. Rev. J. W. Dashiell, presiding elder of the Indianapolis district, made his report. There are thirteen charges of this district located in Indianapolis. Dr. Dashtell spoke of the mission work in Indianapolis. and announced that seven new churches have been dedicated in the district. A feature of the report was the mention made of the large missionary collection of \$735 by the Central-avenue Church, Indianapolis. Rev. A. N. Mariatt, of Evansville district, made his sixth and last annual report. Rev. J. A. Sargent, presiding elder of Connersville district, reported eighty-two churches in his district, valued at \$220,000. Elder Sargent spoke of the beautiful Connersville church, in which the conference is being held. The church, now tree from debt, was erected, at a cost of \$40,000, during the pastorate of Rev. R. Roberts, who closes his tifth year at this session.

This afternoon, at 2:30, the Rev. Dr. F. A. Hester delivered the 'semi-centennial sermon. Dr. Hester entered the ministry in 1843 at Crawfordsville, and finished his fifty years of service to-day. He is the only representative of the cabinet of the conference that was beld here in 1877. The annual missionary meeting was held to-night, and the auditorium was thronged to hear Rev. Edwin F. Frese, from India. Bishop Warren also delivered an address on Methodist missions.

Friends' Yearly Meeting.

Special to the Indianapolis Journal. PLAINFIELD, Ind., Sept. 20.—The Friends' Western Yearly Meeting is nearing its closing session. Among the more important matters considered since Monday was the report of the committee on peace and arbitration. This was followed by the report of the committee on Indian affairs. At 2 P. M. yesterday a joint session wa held in the west room of the church, at which the committees on social purity and foreign missions made their reports. At 7:30 P. M. the Woman's Foreign Missionary

Society held its annual meeting. At 10 A. M. to-day public worship was held in the house, tent and on the campus. At 2 P. M. a business meeting was held, at which the report of the committee on ministry and oversight was submitted. The report of the caretakers was also submitted and approved.

To-morrow's meeting will consist of a business session at 10 A. M., at which the epistles to London and Dublin will be read. The report of the delegates on the treasury will be considered. At noon the thirty-fifth annual session of the Western Yearly Meeting will have completed its labors and the delegates will separate and go to their homes.

Coffin, who won the fi at interstate oratorical honors for Asbury (now DePauw) University in 1881. Judge Morrow was introduced to the students, and spoke of the great possibilities in store for them. His remarks were well received, and the hall, which had been beautified by his princely generosity, echoed with applanse. It will gratify the friends of the university to learn that the effects of the financial depression are scarcely perceptible in the attendance of students, the enrollment thus far being but little behind that of last year. The number of new students is greater this year than last, and the older students are always the last to matriculate. The Music School has an equally promising future before it, and the professors and instructors are aiready at work in that department. Its numerous concerts and recitals exert & marked influence for good, both upon its papils and the community. A concert course of rare excellence has been arranged for this year by engagements with the following well-known artists: Genevra Johnston Bishop, Swedish Male Sextet and Ollie Torbett, Wallace Waugh Lander, Franz Wilczek Concert Company, Emil Liebling, Cecilia Marie Eppinghousen Bailey, Max Bendix String Quartet or possibly Mary Howe-Lavin.

Union City Health Board Gets Into a Squabble on the Surject of Vaccination.

Special to the Indianavella Journal. UNION CITY, Ind., Sept. 20 .- A great deal of excitement was raised in this city yes-

terday by the action of the Board of Health. When the schools here opened it was required that all pupils be vaccinated, Dr. Gustin, a homeopathic physician, did not vaccinate his patients in the eld method, but gave them medicine (this is the homeopathic method.) He issued certificates, and they were accepted. Yesterday the Board of Health concluded that these certificates were not satisfactory. and that all children holding them should be barred out of school until they should be vaccinated in the usual way. Nearly one hundred children were sent away from school, and about fifty trate parents called upon the "professor." The daily Eagle today contains a three-column article on the matter and denounces the affair as an outrage. As there is no law in Indiana compeiling school children to be vaccinated the matter will probably be taken to the courts, and the parties to blame will have a dozen or more suits for damages on their hands. All the children thrown out are those whose parents believe in homeopathy, and they declare they will not "go back" on their doctor if their children be compelled to stay out of school all winter.

Starbuck Not One of the Train Robbers. Special to the Indianapolis Journal,

PERU, Ind., Sept. 20 .- Detectives from St. Louis have been in this city for several days, investigating the record of Milo Starbuck, of this county, arrested at St. Louis some days ago for complicity in the Lake Shore express robbery, and who, when arrested, had some \$1,500 in his possession. The facts tend to show that the young man is innocent of the charge of robbery, as stated, but probably guilty of taking a trip with \$1,500 of money which was given him by his grandmother to deposit in the banks in this city, and which was part of the proceeds of the sale of a farm belonging to his brothers and sisters.
